I was very happy with the care of my dog Teddy and his teeth cleaning. Silver Sands was having a discounted special on oral health assessment and cleaning and I was amazed at the low fee charged. It is a wonderful place where every one is very caring, from Dr DeForge on down... all the assistants are working toward being vets themselves and everyone is very well-informed and pays attention to detail... a GREAT EXPERIENCE.

I liked how the nurses and Dr. DeForge greeted my dog. the greeting was like they were seeing an old friend. BUT when I was asked about medication for my dog, It was done through the nurse NOT the doctor. I had several questions and the nurse had to keep running back and forth from the exam room to where ever the Dr. DeForge was. She did this several times. I was disappointed that he didn't come in himself and address my concerns and questions. This wasn't this first time this has happened.

I was beyond happy and impressed. I was referred Alex & Zach Smith (Scout Smith the dog). The doctor truly cared as well as the staff & explained everything thoroughly. They truly cared about the patient rather than any other vet I've ever been to where they do not provide such amazing bedside manner like SSVc. I was able to call ahead and get feedback & answers before having to bring my animal & getting charged. This I was pleased about. The doctor personally spoke to me on the phone to describe me to me his thoughts and concerns and what he thought is possibly wrong with my cat. I felt very relieved that my pet was getting the best care and it didn't cost me hundreds of dollars either.

What a great service and a great deal!

I was beside myself trying to figure out what to do. My dogs nails were getting so long and I could tell they were bothering her. She even began to bite them herself. But cutting her nails is the one thing I have trouble with from her. Years ago I tried to have the vet cut them and it took two techs, the vet and myself and what an ordeal. I am the only one she will let cut them and it takes me 20 minutes to cut only 4 nails. Then I got an email from Silver Sands with a special offer for May which included a minimal extra charge for sedation.

It was like night and day. They gave her a shot with the smallest possible amount. She was out of it but still awake. In a jiffy all her nails were cut with no fuss. Within a short time she was up and about and we were able to take her home right away. I can tell she is feeling so much better and more comfortable after having them cut. Thank you so very much!

At Silver Sands they treat your pet like a member of the family.

I bring my senior Jack Russell to Silver Sands because I am confident he gets excellent compassionate care there. When I brought him in for a routine check they requested that they keep him a little longer and were able to complete more thorough testing that same afternoon. They put him on meds but requested that I send in daily

emails so they know how he is doing at home. I was also given a full report of all my dog's medical records as well before I even left the office.

After having such a traumatizing experience at another vet in Milford, I was apprehensive to even make an appointment..Luckily I was pleasantly surprised. The staff was very kind, friendly, well educated, minimal wait in the room. Our doctor was awesome, calm, informative, and compassionate. The care was good. But the checkout procedure was ridiculous. The bank put a fraud alert on my card and denied the charge. I had to call the bank and clear it up which took about 5 minutes. We were not allowed to check out for another 45 mins until all the other patients who were there or came in after checked out. The girl was sitting behind the desk and could have taken 60 seconds to run the card and check us out, but she refused and said we had to wait. Why? It's not my fault the bank put a hold on the card. All the while my dog is in the back in a cage. Absolutely ridiculous and incredibly inconsiderate. Thanks for being so understanding

Dr.Deforge was the only doctor that took notice to my boys eyes and tried fixing them right away! No other vet that he's been too even looked at his eyes!

Sparky has received excellent care at your clinic. He is so well loved and everyone seems to take such genuine care for him. We switched from another clinic as I didn't feel he was getting the best care and thank goodness we did. We would have never known what was really wrong with him if it hadn't been for Dr. DeForge. He is now on the path to recovery and I have told all my friends about your clinic. Sparky is forever grateful!!!

Dr. DeForge and staff were phenomenal in helping my dog during an emergency - an anaphylactic reaction to bee stings. They were calm and professional. My dog would not even get out of the car, they gently coaxed her out and took over. Within 15 minutes of caring for her, she was like her normal self. I believe they truly saved her life. They completely explained her condition, what they did, what meds they administered and medication and other followup care. They turned a horrible frightening visit into a calm and happy ending. I can't say enough kind words about them. Thank god they were there for us!

Dr. DeForge was knowledgeable and we felt very comfortable working with him. Highly recommend this for anyone looking for vet care. Wish we had known about them before now.

There is so much compassion and gentleness in the handling of Ginger. Dr. Deforge tries to work with me and Ginger's medical needs. He seems to have a deep care about his "patients" which is very important to ur "Moms".

Everyone at Silver Sands was very friendly and knowledgeable. It is obvious that the staff genuinely cares for their patients and clients. They were very patient with my German Shepherd, who tends to be extremely anxious at the vet. I was completely happy with our visit.

Maybe as a Veterinary Dentist he's great, but difficult together in touch with. Very nice and knowledgeable but very expensive and DOES NOT ANSWER ANY EMAILS and that's what he claims is the best/fastest way to get in touch with. I still waiting.
